# HAWK

Series

Compact Edition

Models: X Compact

Part No: AITS25HWX

[ BASE Version: AITS25HWX, AITS24HWX ]

## Key Features

| Feature                               | Description                                                                                                                                                                         |
|---------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                       | Equipped with latest Intel Xeon / AMD EPYC processors with memory support up to 64GB, ensuring reliability and performance for mission-critical workloads. Single Powerful Socket.. |
| UPS Power Supply                      | 80+ Platinum certified power supplies for maximum uptime and energy efficiency.                                                                                                     |
| Flexible Storage & Expansion          | Support for SSD and NVMe drive(s) without RAID options. X compact model offers one additional SATA future extension.                                                                |
| Advanced Security                     | Integrated TPM 2.0 and Secure Boot. For Rugged-Industrial grade deployments heat-sink chassis supported only..                                                                      |
|                                       |                                                                                                                                                                                     |
| Scalable                              | Cluster supported for stacking.                                                                                                                                                     |
| Rack Mounting                         | Front and Rear Both option. Telescope mounting optional                                                                                                                             |
| Disaster Recovery & High Availability | automated failover and backup recovery for uninterrupted services.                                                                                                                  |
| Certified Compliance                  | Meets global standards BIS, CE, FCC etc for telecom and government deployments.                                                                                                     |

## Technical Specifications

| CATEGORY           | SPECIFICATION (X)COMPACT                        | SPECIFICATION (X)RUGGED |
|--------------------|-------------------------------------------------|-------------------------|
| CPU                | 10th Gen Ind-Intel CPUs (upto 85W)              | FANLESS                 |
| CORE*              | Upto 10C/20T (3.0 GHz base, up to 5.3 GHz boost | 8C/8T - Industrial      |
| RAM*               | DDR4 SODIMM up to 64 GB                         | 32                      |
| STORAGE*           | 2 TB                                            | 2TB                     |
| POWER SUPPLY*      | 80+ Titanium grade x 1                          | Industrial x 1          |
| NETWORK USE CASE   | UPS- Power port (2.5 Gbps), 1 GbE for Mgmt.     | On- demand              |
| CONNECTIVITY       | Ethernet RJ45                                   | On- demand              |
| NIC PORTS          | 1 x 2.5 GbE + 1 (MGMT) x 1 GbE                  | -                       |
| USB PORTS          | 2 Front + 4 Rear x USB3.0/3.2                   | 2 x USB2.0              |
| RACK COMPATIBILITY | 1/1.5U (Half-Rack)                              | 3.5U(Half-Rack)         |
| OPERATING TEMP     | 0 to +55 °C                                     | -40 to +85 °C           |
| HSN CODE           | 8517                                            | 8517                    |
| AMBIENCE RACK NOTE | DC(UPS) -Server Rooms                           | Industrial / Rugged     |
